The most recent certified zone status provided by the plan, the date of the plan’s year-end to which the zone status relates, and whether the plan has utilized any extended amortization provisions that affect the calculation of the zone status.

For the plan year ending on June 30, 2023, UANPF was certified as “safe” because its estimated funded percentage on July 1, 2022 was 84.2% using the actuarial value of plan assets.

This certification reflects the steady progress the Fund made under the Funding Improvement Plan adopted by the Trustees in 2010, which is no longer in effect, as well as the success of the Fund’s investment program. The Fund utilized funding relief under Internal Revenue Code § 431(b)(8) and ERISA § 304(b)(8), specifically the “special amortization rule,” which allowed the amortization of the Fund’s investment loss for the plan year ending June 30, 2009 over a 29-year period instead of a 15-year period. In addition, the Trustees were granted an automatic 5-year extension for all amortization charges established on or before July 1, 2009 as permitted under Internal Revenue Code § 431(d)(1).

As of the end of the prior year, whether a funding improvement plan or rehabilitation plan had been implemented, whether the employer paid a surcharge to the plan, and a description of any minimum contributions.

The Fund's Board of Trustees adopted a Funding Improvement Plan (FIP) in April 2010. The FIP has been fully implemented and is no longer in effect. The Fund has never been in 'Critical' status, so it has not adopted a rehabilitation plan, and no employers have been required to pay a surcharge. Contribution rates are set in the applicable collective bargaining agreement (CBA).

A description of significant changes that affect comparability of total employer contributions between periods, including changes in contribution rates.

There are no plan-wide changes that would impact comparability, including no minimum funding requirements for employers. Please consult your company's CBA for any applicable rate increases.
